LADY SACKVILLE IN TEARS AMAZES COURT

Breaks Down on Witness Stand When Friend's Letter Is Read.

Missive Tells of Sir John Scott Cutting Her Out of His Will.

Special Cable Despatch to THE SER LONDON, July 3.—The fashionable women, including Mrs. Asquith, wife of the Premier, and Mrs. Winston Churchill, wife of the First Lord of the Admiralty, who crowded the Probate Court to-day were not prepared for the outburst of passionate emotion by Lady Sackville which was the central feature of to-day's hearing of the contest of the probate of the will of the late Sir John Murray Scott, nor for the evidence which caused it.

Lady Sackville had kept the court roaring with laughter by her lively retorts to the cross-examination of F. E. Smith of counsel for the Scotts, especially by her ludicrous version of the story of Walter Scott getting on his knees and following her in that attidemonstrated this knee walk with her knuckles on the front of the witness stand in a manner which convulsed the

Lady Sackville declared that her penny she would have liked him just Thereupon Mr. Smith with unexpected sharpness asked Lady Sackville if she hadn't been waiting wearily for a decade of Sir John's life for what she expected his death would bring her. Lady Sackville repudiated this with

great emphasis. Counsel at once confronted her with a letter which she wrote in the autumn of 1911 to an intimate friend, a Mrs. Cook, in which she said that Sir John had made a new will "leaving everything he has dangled before my weary eyes for ten years away from us three.'

The letter contained more, but Mr Smith stopped reading and looked at the blanched and her lips quivered. For a moment she looked Mr. Smith full in the face and then collapsed. She sank into a chair, turned her back to the court and sobbed for a couple of minutes. Everybody gazed at her in amazement, and Mr. Smith desisted from further questioning. Then after she had partially recovered her composure Lady Sackville again stood up and explained with tears in her

"Therefore," retorted Mr. Smith, "you wrote her what was true." "I did not know that she would be have like that," replied Lady Sackville.

Mr. Smith then read the rest of the letter, which was as follows: taking it like a man. I am very sorry to lose his friendship, as friends are rare, but I am very glad that I am not ng to be hampered any longer."

Here Lady Sackville made a further excited protest at the "monstrous" be havior of her friend Mrs. Cook. Mr. Smith assured the witness that the letter was only surrendered under pressure of a court subporna.

Mr. Smith relentlessly probed for the meaning and motives of the letter, but Lady Sackville could only think of her friend's unkindness. "It is so ow," she ejaculated passionately, lowest thing that has occurred in this zollern, will take place here in Sep-case except the testimony of Major tember. The civil service will be percase except the testimony of Major Arbuthnot." Then there were more tears and broken ejaculations.

Mr. Smith wanted an explanation of the word "hampered" in the letter. Lady Sackville said Sir John would never allow her out of his sight, and when she knew he was not going to leave her the money she would be
